

July 27, 2016

Mayor Sam Liccardo  
200 E Santa Clara St,  
San Jose, CA 95112

Attention Mayor Liccardo:

The Newby Landfill has been creating odor in Milpitas and Fremont that is adversely affecting our quality of life. I have been fighting with citizen groups in the region to oppose the expansion of the landfill. We also need to address other regional causes of odor, including from the San Jose Sewage facility.

We need to work to reduce the odors coming from the plant and demand odor mitigation. I hope you will join the residents of our community and myself in making sure that there is no expansion until the odor issue is addressed.

Sincerely,

Ro Khanna
